### THE PRINCE'S TOUR.

ing in interest to their Indian experiences. During the fire morths that the visit lasted in India not a single regretable incident considerable incident

the byways and side paths of Indian life. On the other hand, the Prince and Princess were able to include in their timerary the latest addition to the Espire of Isids. Whee King Edward paid his visit to the Est, Upper Bormsh groand under the crudities of King Thebaw and the lawless oppression of the Dacoits. To day no part of his dominions is more peaceful, more prosperous, more contented. It is a magnificant illustration of what wooders twentry years of resolute and sympathetic government can work with the peoples of the East.

One thought, we may he arms and the second of the content of the content of the content of the content of the East.

of the East.

One thought, we may be sure, says "The Globa," was saidom absent from the minds of their Royal Hilphonesse. Go where they might, they were treading on an Empire's date, not merely on the dust of Mayals and Maharitas, and Sikha, and the mysterious warriors north of the Indus who belief with the legions of the great Alexander, but the dust of the suits. the great Alexander, but the dust of the subjects of their own ancestors who had given their lives for Begland. It will be a hundred and fifty years ago next June since Citive laid the foundations of our Jodian Empire at Pleasy; fifty since the revoit of the Bengal Sepora threatened it with rain. We have Pleasy threatened in the with rain as in the visit to those please which the sufferings and the heroism of the muting have made hallowed ground—to Delhi, to Cownpors, to Lucknow. And in the far North-West, the gloomy pass of the Khyber, where we suffered our greatest national humiliation, most have enforced the lesson which no roller of India can ever forget, that in the last feasort we hild it by the sword. THE ROYAL VISIT.

ROYAL PARTY LEAVES SHEZ.

Cairo has lived these last few days in Lornon, Thorsday.

There is a prosposing a speedy solution of the Akaba question owing to the unasiness of the Porte. Sir Edward Groy is giving Museura, Pacha to understand that if the Turks, persisted in their present attitude England would take steps. Cairo has lived these last few days in a state of quiet expectation sent: the arrival of the Beyarl visitors, which will be the signal of the Beyarl visitors, which will be the signal of the sent of the state of the sent o been uncommonly sultry and the murky atmosphere and temperatures gusts of wind pressage ill for the various functions and expeditions that have been arranged in the pro-We hear on good authority that no definite answer to, the demand of the Egyptian, and British Governm nt is likely to be received, from the Turkish, authorities for several days. One of these officers is still at Beyrout and the other, who has falled ill, no doubt owing to the

The final arrangements of Abdeen Palace have now been effected and the entire left wing has been redecorated and placed at the disposal of the Prince and Princess and their numerous suite. They will use a private entrance and, except on State occasions, they will take their meals in the handsome dining-room belonging to their suite of rooms. There other, who has falled ill, no doubt owing to the strain of his regitated interviews with 'the Egyptian authorities, has returned home. In the House of Commons last week Mr. Arhley (U., Blackpon) asked the Secretary for Foreign Affairs whether the Tarkish garrisons had been reinforced at points near the Sinai Panissals, now the subject of negotiations will take their, mels in the handsome disingroom belonging to their suite of rooms. ### THE WARDAN ESTATE.

THE YEAR'S WORK

A SUCCESSFUL COMPANY.

The following is the speech of the chairman on the working of the Wardan Estate Company during its second financial year ending 31st December, 1905, which was delivered at the second ordinary general meeting held in Cairo on Tuesday last:

Gentlemen.

Gentlemen,
"You have heard the report read by the
secretary, and I have only a few words to add.
As will be seen from the balance sheat, on the
31:t December last we had an unexpended
balance of £33,000 odd. This will be only
sufficient to carry on the work for another 12
months from that date, because, although our months from that date, because, although our working expenses amount to only about LR 2,000 to LE 2,250 per month there is still considerable expenditure in machinery and wells to be incurred this year. I do not wish to make any invidious comparisons with any other land companies, but I think I can safely state without fear of contradiction that the Wardan Company, in proportion to the area of its concession, has done more actual reclaiming work and has more plant and machinery. of its concession, has done more actual reclaiming work and has more plant and machinery on its estates per feddan than any other land company in Egypt. After careful consideration your directors decided to ask you for a fresh issue of £50,000 of capital, which, it is hoped, will be ample to meet all future requirements, the more so as the Khatatba Estate is now a sleachly reporty which can be realized should the more so as the Khataths Estate is now a saleable property which can be realized should forther funds be required. As the share-holders have so far received no dividends your directors decided not to make this new issue at a premium, as was done with the last issue, but to issue the shares to the shareholders pro rata to their holdings, giving them as it were a bonus, for of course the shares can be cold in one, market at a substantial premium. pro rata to their holdings, giving them as it were a bonns, for of course the shares can be sold in open market at a substantial premium. You will note that the issue price will be £5 10s. per share. Our shares being 5% cumulative dividend shares there are now due on the old shares two coupons of 5s. each, and, as in a small company like ours it is desirable not to have shares of two denominations, this extra 10s. per share will be placed to a special reserve and will be distributed to the new shares whenever a dividend is paid, so that they may receive exactly the same dividend as the old shares. Shareholders will, I am sure, be pleased to read Mr. Lang Anderson's report, and I think we can congratulate correleves on the fact that any element of doubt as to the final success of our undertaking has now been completely eliminated, and that it is only a matter of waiting a few years to reap the harvest of our labours. One has only to ext a glance at the rich green fields of berseem now growing at Khatatba, and ther recall the ghatty looking desert that was there before we took it in hand, to be assured of the success of the undertaking. Another mattar for congratulation is the unqualified success of the tabe wells for, though I have no doubt that the Government would have given us "Sefi" water whenever our land was ready to receive it, still we could never expect the fririgation Department to make a special exception in our favour, and therefore any "Sefi" water given to us would have been subject to the usual summer rotations. As it is, our tube wells tap the subsoil water of which

ject to the usual summer rotations. As it is, our tube wells tap the subsoil water of which there is an unlimited supply and on which there are no pumping restrictions; this in a loose sandy soil such as ours at present is of much greater importance than it would be on the usual stiff clay soils of Bgypt which carry water for much longer periods. Before bringing my remarks to a close I wish to express to Mr. Wingham and his staff our best thanks for the energetic manner in which they have carried out their duties during the past year and I feel sure the shareholders present desire to associate themselves in this.

If any shareholders present have any questions to ask I shall be very pleased to answer them. Berlin, March 28.

Later on, of course, a great dast of this money will find it its way over here, and we may have a gitt of it, especially fitte our Greenmant. For the present, however, the igathering for swemps, the Stock Exchange at the ment, and end of smooth requirements lessy money close up to the Bank rate, weekly leass commanding 4%. This dearness is effecting the disponant market, and the fine rate for CO d/s paper is 3 the 16%, and for three months' bills 30%. From these rates it may be judged that the discount houses do not take a very hopful view of the outlook for April, or even for May, but due allowance should be made for their feelings, the state of the money market during the last three months having hadly toaded to encourage optimism.

The Bank return exhibits little of inte-rest this week, beyond reminding us of the large figure to the credit of the Government, vir. £19,366,344. The total reserve is slightly higher, but an increase in the "O-her Da-joulis" leaves the "proportion" in the Ban-ing, department a little lower at 46.6. There

ing department a little lower at 46.6. There has been an addition of one million and a half to 'Oher Securities' thus reflecting the market's borrowings.

The Bank has continued to receive gold since the returns were made up, including the sum of £100.000 from Germany. This sum no doubt represents Russian money, more of which, it is hoped, will come to hand.

Theo Stook Markets.

There is very little change to report in the stock markets here. We are nearing the end of a very long account which promised better things and has been a disprpointment to all. There is no doubt that the present Hones of Commons is looked nops by capitalists as a danger to the country, and fip one would be surprised at anything they may bring forward or carry through. The sense of flippant irresponsibility and of their own absolute power seems to possess them, and until some cleavage takes place which will more fairly balance the true options. of the country, in funnical close at any rate no great enterprie in invisitment is likely to be seen. There is hardly an interact that is not threatened in sôme way or other. The weakness of Lord Elgin in not keeping in order his irrepressible sub. his produced a feeling of want of confidence seem in foreign

The wakeness of Jonel High in not keeping in order his irrepressible such he produced a feeling of wast of confidence when foresign shirs, although there is light to show this rise more partial department. At the confidence was not foresign shirs, although there is light to show this rise in which was not present department. At the confidence was not provided able mivement, "and far' that we may not have long to wait," but the probable that it will be short-lived when it does come in the meantime gilt edged econtries are as little in request as the speculative stocks, and Gonole in particular are weakly supported. There is no department, and the best jobbing houses some eager to take a hand as dealers. The general complisite, however, is that it in difficult tog the hold of sufficient shares it which to make a market.

The giltedged market is dull in sympath with other aestions of the House." Consolwhich have been somewhat irregular, finite off rather better on the week at 90  $\frac{1}{2}$  for the account.

Foreign Bonds.

In the International market Russian Bonds have again received support, and have maintained the level attained last week, viz., 85 1. tened in level attained last week, vii., '65',
This would point to the increasing confi fence
of the investing public in an early settlement
of the troubles in the Tax's domains. Japanese
Fours are j. higher at 192's. Egyptian Unified
are now 106, after being ‡ higher.

Home Rathways.

The market for home railways continued to display a listless tone, and during the week besiness has been on a small scale. Greet Eastern rose j. on the announcement of a treffic increase of £2 800. Mi-fortune continues to be 'the lot of the District Railway, and the head-line "Accident on the District Callway, and the head-line "Accident on the District" seems to have become a standing feature in the daily press. Another rather serious breakdown was reported yesterdy, as a raculat of which the shares of both the Matropolitan and the District fil 14 points. These 'request Leakdown, with the consequent inconvenience and danger to which they expose passengers, formed the solgetor of they expose passengers, formed the subject of a question in Parliament this week, and the President of the Board of Trade stated that he had been in communication with the Company

on the subject. The Company in reply pointed out the difficulties involved in the electrifica-tion of the line. It is to be hoped, in the inte-rests of shareholders and the travelling publicthat we may soon see an end to these unfor

\*\*Mining\*\*.

The Government have further displayed their hostility to the mining industry of the Road by allowing an impartinent vote of censure on Lord Minort to be brought forward, and though it is true that, at the law moment, in order to ave their face, they put forward an amendemet which had the effect of nolli-fying the residuation, their attitude throughout has been most discreditable, if not encountite tional. In face of these repeated attacks it is too much to expect that the market for South African mining shaves should be anything but dull. ## TO O R VISITORS.

The Egyptian Gazette has much ple resenting to its subscribers the accompany-lescription of some of the many interesting es by which they may travel homewards. It care has been taken to arrange them as rately and concisely as possible, and it be found that none of them are fraught difficulty. In choosing the route home e are several things to be considered. To n with there is the difference in climate tween Egypt and the various points at which u may arrive in Europe.

This depends partly upon the month in which you leave Egypt, for Cairo in January may be a little warmer than the Kwiera, and possibly not so warm as Sicily, but in March it will be warmer than Rome, and more uniformly warm than many other places in Europe Many people leave Egypt far too early in the year, for as a rule the weather in April and May is perfect. The warmest place to go to on leaving Egypt is Sicily.

Some will want to take into consideration the number of days to be spent at sea, and we therefore subjoin a list showing the time cocupied on each of the various routes between Egypt and the Continent of Europe.

columns and historical paintings, and the incomparable Campo Santo filled with its wonderful tombs.

From Genoa to Milan is a matter of only
three hours by rail.

MILAN is a good centre for Northern Italy
before making the tour of the Lakes. The
Cathedral is the principal attraction, with its
beautiful windows illustrating the History. of
the Bible. The public pardens and the monumental cemetery are also worth a visit.

Between Bologna and Milan and only an
hour and-a- half from Milan is SALSOMAGGIORE, a renowned health resort on account
of its thermal springs, change trains at Borgo
Son Downo and in half-an-hour you are at
Salsomaggiore.
